PROFESSIONAL SUMMARY

Website designer and developer with 15+ years of experience delivering responsive, high-performing, and SEO-optimized websites for global brands and enterprise organizations across Singapore, the USA, and the Philippines. Specialized in modern front-end development, WordPress CMS, React/Next.js ecosystems, technical SEO, website optimization, and scalable UI implementation.

Proven track record collaborating with cross-functional marketing, design, and development teams to launch conversion-focused digital experiences for brands including Facebook Singapore (Meta), Circles Life, OCBC Bank, Hilton APAC, Ford, Changi Airport, and INSEAD. Experienced in remote collaboration, Agile workflows, reusable component systems, and modern web technologies.

CORE SKILLS

Front End Development, ReactJS & NextJS, TypeScript & JavaScript, WordPress Development, Technical SEO, Website Performance Optimization, Website Design, Responsive Web Design, UI/UX Implementation, Headless CMS Architecture, Web Accessibility (WCAG/ARIA), REST API & GraphQL Integration, Design Systems & Reusable Components, Landing Pages & Funnel Development, Figma-to-Code Development, Agile/Scrum Collaboration

WORK EXPERIENCE

Web Developer, Highspring — USA (Remote) | Jul 2025 - Present

- Manage and maintain WordPress CMS content including blogs, case studies, news articles, and white papers for marketing and corporate communication initiatives.
- Develop reusable WordPress templates and HubSpot landing pages that improve publishing efficiency and maintain brand consistency.
- Build and customize SplashThat event templates supporting monthly virtual and in-person marketing campaigns.
- Collaborate with marketers, copywriters, and UI/UX designers to deliver responsive and conversion-focused web experiences.
- Improve technical SEO and website performance through image optimization, asset compression, and front-end performance enhancements.
- Support hosting maintenance, troubleshooting, deployment activities, and website uptime monitoring.

Front Web Developer / Designer, Freelance — Philippines | Oct 2024 - Jun 2025

- Developed custom WordPress and WooCommerce websites optimized for responsiveness, SEO, and page speed performance.
- Built modern web applications using Next.js, Tailwind CSS, and Shadcn UI with scalable and maintainable front-end architecture.

- Designed and developed landing pages, sales funnels, and marketing websites using Figma, Systeme.io, and Webflow.
- Delivered conversion-focused digital experiences for local and international clients.

Senior Web Developer, Circles Life — Singapore (Remote) | Dec 2021 - Sept 2024

- Migrated traditional WordPress websites into modern Headless CMS architecture using ReactJS and Next.js.
- Integrated REST APIs to streamline content management workflows and improve front-end flexibility.
- Improved website performance, technical SEO, and front-end code quality through optimization initiatives and audits.
- Developed reusable design system components using Chakra UI to ensure consistency and scalability across digital platforms.
- Worked closely with regional stakeholders and business teams to implement website improvements focused on user engagement and conversion optimization.

Web CMS Developer, Facebook / Section — Singapore | Dec 2019 - Oct 2021

- Developed and maintained web pages for internal and external audiences using HTML, XML, and CSS.
- Managed daily website content updates while ensuring accuracy, consistency, and compliance with brand standards.
- Implemented landing pages and integrated multimedia assets within the CMS environment.
- Conducted website QA testing including content validation, broken link checking, and layout verification.
- Collaborated with cross-functional teams to support marketing campaigns and web content initiatives.

Front End Developer, Jardine Cycle & Carriage — Singapore | Nov 2018 - Sept 2019

- Converted wireframes and design prototypes into responsive, maintainable, and production-ready front-end code.
- Developed mobile-first interfaces for Sitecore CMS websites with strong focus on usability and scalability.
- Ensured cross-browser and cross-device compatibility for consistent user experiences.
- Worked within Agile development teams alongside designers and developers to deliver enterprise-level digital projects.

Front Web Developer / Designer, Freelance — Philippines | Aug 2017 - Sept 2018

- Created interactive HTML prototypes to support rapid design iteration and stakeholder feedback.
- Built responsive WordPress websites using Elementor while maintaining pixel-perfect implementation.
- Designed marketing assets including banners, brochures, logos, and promotional materials.

Front Web Developer, VML — Singapore | Apr 2014 - Jul 2017

- Developed responsive and user-focused websites with emphasis on performance optimization and usability.
- Built reusable front-end components and libraries to improve development efficiency and scalability.
- Evaluated the technical feasibility of UI/UX designs and ensured accurate implementation.

- Optimized websites for speed, responsiveness, and cross-browser compatibility.
- Contributed to projects for major enterprise and regional clients.

Senior Multimedia Designer, Numoni — Singapore | Apr 2014 - Jul 2017

- Designed digital and print marketing materials including brochures, flyers, promotional graphics, and campaign assets.
- Collaborated with video production teams to create promotional videos for social media and marketing campaigns.
- Managed social media content and visual branding across Facebook & Instagram.
- Led UI design initiatives to improve interface consistency and user experience.

Front End Developer, Convertium — Singapore | Nov 2011 - Oct 2013

- Contributed to responsive front-end development projects for desktop and mobile platforms.
- Maintained standards-compliant code and ensured cross-browser compatibility.
- Worked with back-end developers to improve usability and front-end implementation quality.
- Optimized and enhanced digital assets including banners, thumbnails, and web graphics.
- Contributed to the award-winning OCBC website revamp project recognized at the W3 Awards.

Senior Web Designer, Abacus Investment — Singapore | May 2008 - Oct 2011

- Designed and developed websites from concept to deployment for corporate and marketing initiatives.
- Hand-coded websites using HTML and CSS while integrating with various CMS platforms.
- Delivered user-friendly web experiences aligned with business and branding goals.

Web Graphics Designer, Ashton Media — Tanzania | Nov 2006 - Feb 2008

- Designed magazine advertisements, brochures, flyers, banners, and digital marketing materials.
- Developed and maintained websites for internal and external projects.

EARLIER CAREER EXPERIENCE

- Web Graphics Designer, Freelance — Philippines (2004 - 2006)
- Design Team Lead / Webmaster, Cybersource — Philippines (2004)
- Web Designer / Graphic Artist, First Philippine Scales — Philippines (2003-2004)
- Desktop Publisher, GP Group of Companies — Philippines (2003)
- Data Encoder, Trackspeed International — Philippines (2002)
- Data Encoder, ZM Data Processing — Philippines (2001)
